

Tomasz Kaczmarek

About me

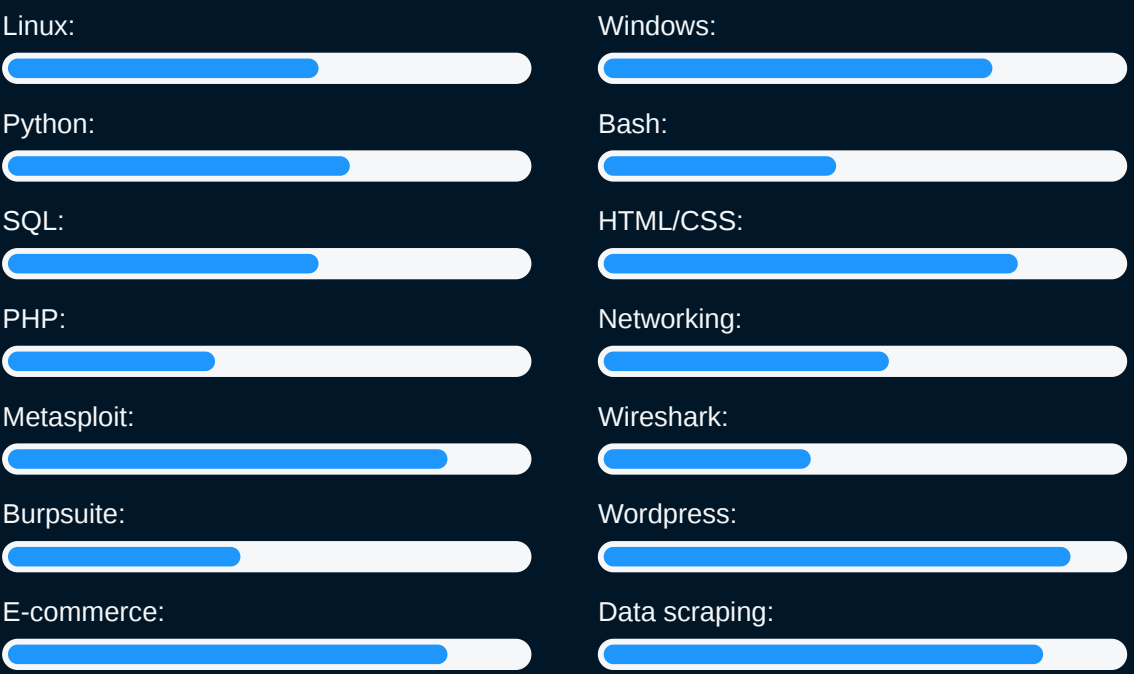

I am Tomasz Kaczmarek, a self-taught Python programmer and Cybersecurity enthusiast from Poland. Driven by a passion for new technologies and solving complex problems, I thrive on tackling new challenges and continuously expanding my skill set.

I've been working in a digital marketing company for three years. My role involves diverse responsibilities, from developing websites on WordPress and managing e-commerce operations to administering our local network and ensuring its security. Always eager to expand our company's services, I've implemented strategies like data scraping and cold email campaigns.
